

MUCHEA VEAL REPORT 12TH MARCH 2018

This week's Muchea veal sale saw numbers up on last week with a total of 162 offered. Although numbers rose, the quality of this week's yarding was plain and light throughout and all pastoral lines with the exception of one pen sold.

The small pen of local cattle penned sold to \$620 and did meet reasonable competition. Pastoral consignments made up the balance and were back in value by \$20 to \$50 with limited enquiry on most lines.

Pastoral bulls were very light weights and with one or two operating on each pen, saw prices between \$165 and \$350.

Heifers were the bulk of the yarding today and were in light and plain condition at best with returns of \$125 to \$215 and young and inferior calves between \$40 and \$100.
